

**Are our current funding models moving the dial for our most excluded & disadvantaged youth?**

**Are we generating the best outcomes for the sector & for our recipients?**

**Are we making the most of our unique position?**

**Keeping the good elements  
of our current work & using  
our learnings to adapt &  
innovate**

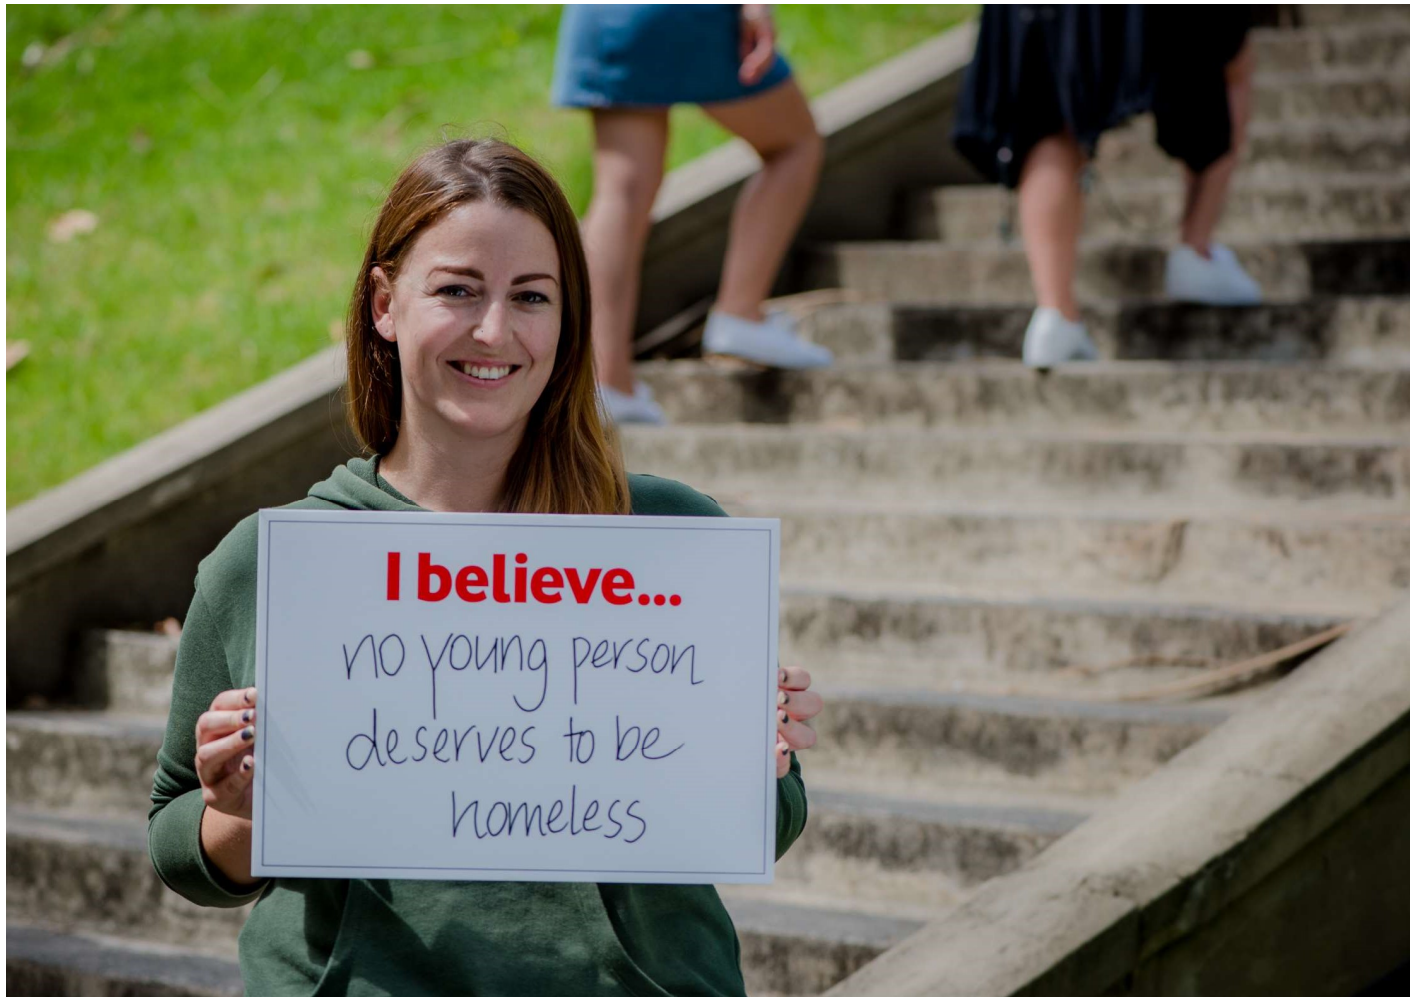

**Re-engage our radical side  
Leverage the power of  
Vodafone**

**Focusing on the most  
excluded & disadvantaged  
young people & the  
contexts that surround  
their lives**

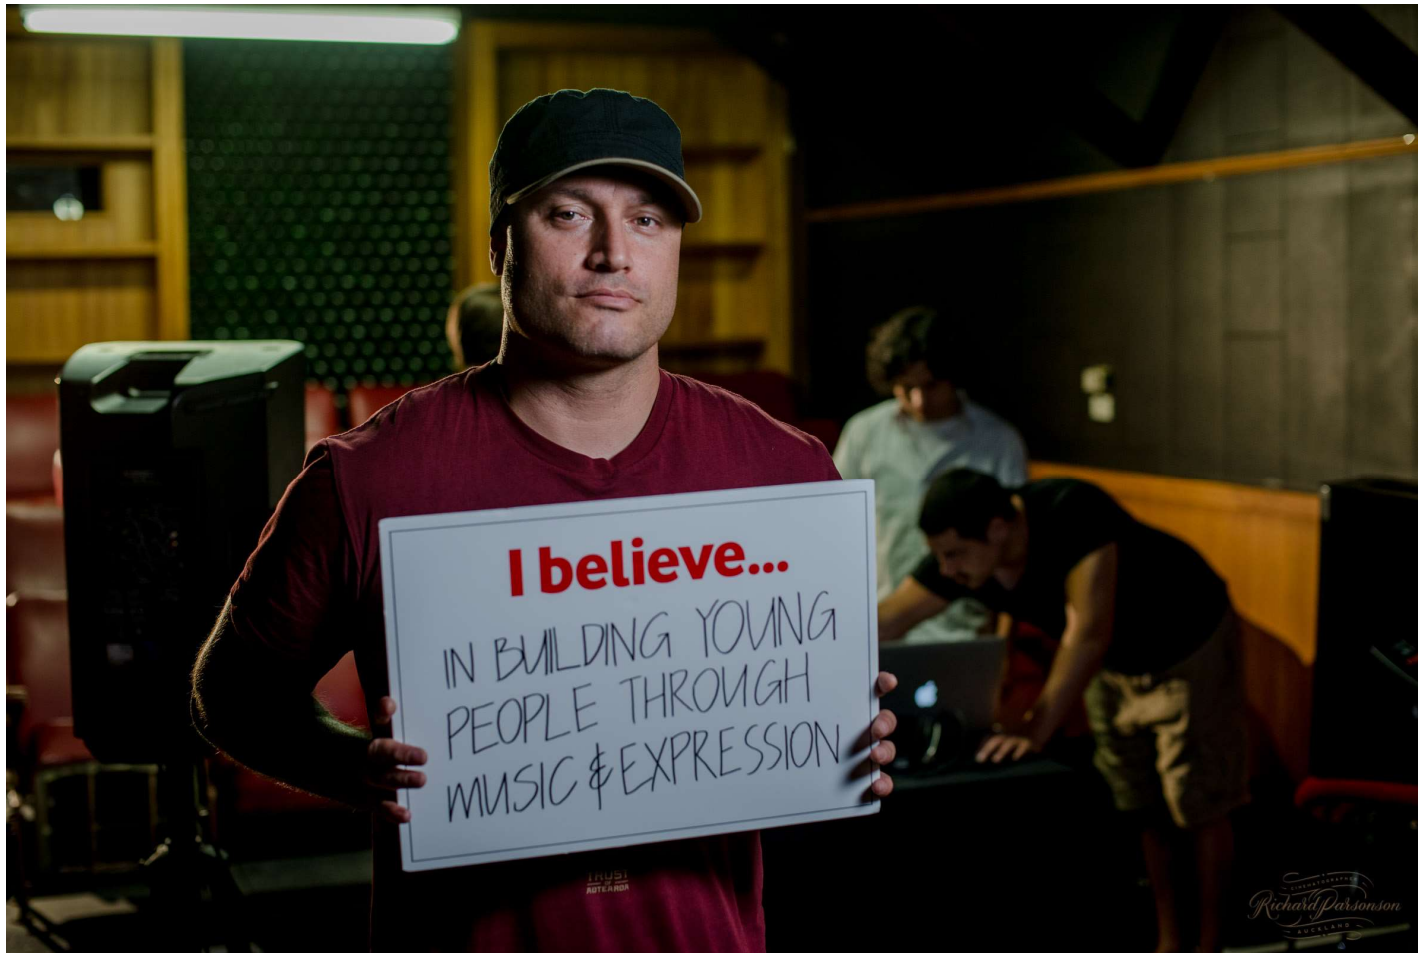

**We're investing 10 years & \$20 million  
to halve the number of young people at risk.**
