# TAKEAWAY

know your digital readiness

**Proactively plan for Tech** - budget, skills, culture

Technology does not solve everything.  
Take a **digital ecosystem consideration** approach

Technology is an **enabler**. Think of the problems or the **needs of the people** to solve first!

People in your organisation are likely going to need to learn & adopt technologies

Approach a tech specialist

Merging  
**what people want\need**  
With  
**a viable business model**  
And  
**an accessible technology**
